We publish to-day an instalment of the official correspondence of last summer between our Secretary of State and the Minister of the Mexican republic, Senor Romero, which will be found very interesting and satisfactory in reference to the attitude of our Government

upon the Mexican question. The Administra-tion adheres to the public, and is not disposed, to the advantage of the French, to pursue a one-sided policy of neutrality; but the Exec-utive can not intervene as an active party in utive can not intervene as an inctive party in the struggle without the authority of Congress.

Meantime, however, the suspension of reinforcements of soldiers from France is telling very seriously against Maximilian in every quarter of the country. Making a due allowance for exaggeration in the San Francisco report of a late crushing defeat of the French at Mazatlan, we think it altogether probable that they have suffered a damaging reverse in that quarter. That the imperialists—French, Austrians, Belgians, Turcos and mercenary Mexicans—have been beaten of late in various encounters at different places, involving heavy losses of materials of war and supplies, all accounts agree in admitting; and that these reverses have resulted from the suspension of French reinforcements we can not doubt. The depletion of Maximilian's European forces by the climate and the easualties of the war goes on, and as he becomes weaker the liberals, drawing upon the native population of seven millions, becomes stronger, and one exposed imperial position or detachment after another falls into their hands. Maximilian, then, with the withdrawal of the French troops, must pack up his imperial gimeracks, and, gathering together such loose articles of plunder as he can, leave the country.

Our French news by the Persia discloses this to be the course which he is to pursue. The French troops are to be withdrawn, but France will continue to hold some of the Mexican ports for the indemnification of her expenses in this unlucky business. It appears, to this end, that between Napoleon and Maximilian a new treaty is in progress, "which shall afford guarantees for the debt owing to the struggle without the authority of Con-

poreon and Maximilian are making their arrangements so that in leaving Mexico they will not leave empty handed. Maximilian is to pay Napaleon, and of course Mexico, in some way or other, must be made to furnish the means to Maximilian.

The grand Mexican adventure of Napoleon, in this given divides down to more leaves. The grand Mexican adventure of Napoleon, in this view, dwindles down to a mere buccaneering raid, the net results of which will be summed up in the plunder which he and his Austrian protege will be able to carry off. Would it not be well, therefore, for President Juarez, after the fashion of non-combatants in buying off hostile foragers, to make an offer to Maximilian of so much money to leave Mexico, bag and baggage, 'crown and sceptre, troops and followers, under the terms of an acceptable treaty with the republic? As a faithful and diligent representative of the republic. Senor Romero, we think, ought to suggest this experiment to Juarez. The time appears to be eminently favorable for such a settlement in view of the great European game of diplomacy which now absorbs the attention of Napoleon.

Execution at Richmond. The Richmond Times of Saturday gives the

the following:

Yesterday, about one o'clock P. M., Thomas Shields, a soldier belonging to the Fifth Artillery, United States service, convicted of the murder of a man named Taylor, a short time ago, near Williamsburg, was hung at Libby Prison. The execution took place in the third story of the building, the fatal rope being suspended over the hatchway leading through the third floor. All necessary preparations, such as erecting the scaffolding, arranging the trap and adjusting the rope, had been made the day previous. The execution was strictly of a military character, and only those who had special permits, comprising members of of a military character, and only those who had special permits, comprising members of the press, clergymen, officers and soldiers on duty at the prison, and friends, one hundred in all, were admitted as witnesses.

About twelve o'clock the crowd began to assemble, and after some delay the favored few gained entrance into the building, and were conducted up stairs to the second floor, on which the prisoner was confined. About eleven o'clock Shields had sent down a letter of thanks to the company who had been guarding him for the treatment he received from them during his confinement. We waited some time for the appearance of the prisoner, who was in his cell in consultation with Dr. Beeker and Father Andrews, both of the Catholic church. The prisoner also requested an interview, during the morning, with Dick

About one o'clock, the hour appointed for the execution, the prisoner was brought out of his cell, and conducted through the crowd to the gallows, on the second floor above. This was our first view of the prisoner on this occasion. A description of him was given yesterday. He has not improved since we last saw him. He was evidently under strong excitoment and has not improved since we last saw him. He was evidently under strong excitement, and determined to "die game." He swaggered along, saying as he passed, "Good-bye, fellows!—good-bye, fellows! The — man that hangs me is a dead man." etc. He was hurried up to the third floor out of sight; but all in the building could distinctly hear the blasphemous shouts in which he indulged to the last moment. Father Andrews afterwards stated that he thought the whisky which had been given shields previous to his being brought from the cell had partially intoxicated him and caused the blasphemy which we heard, as just before being led forth he seemed to be somewhat penitent. While the prisoner was up stairs the crowd below whiled away the time in listening to his shouts and looking at the fatal trap above. Suddenly, without notice of any kind, a click was heard, the trap fell and the murderer was swinging in the air.

China Going Up.

"The Staffordshire, England, manufacturers have advanced the prices of China and earthen ware at the rate of about ten per cent., owing to the enhanced value of labor and materials." A new and happier era is about to dawn upon the social world if the workingmen shall now be true to themselves. The laboring man, if he does his duty to himself, is about to assume his just position and relations in society.

If the negroes, the pure African blacks, are not equal to such position, why say they are equal to the positions of controlling civil government? They are not equal to them. They could not carry on a Government for their own people; how, then, can they be admitted to that of white men? machinery which has produced these wonderful, glorious, humanizing, equalizing, and elevating results!

Thysical have been followed by moral, and moral by social discussions and changes; and now, we have reached the point where the laboring men have taken up the question as to their true position and relations in society, in the industrial world. It is seen that three elements or agencies enter into the production of the wealth, the source of support to all mankind.

1. The spontaneous productive power of nature.

This, GoD gives the free benefit of to all, the rich and the poor. Both classes have a right to share equally in this.

2. In connection with this, labor. And, 3. In like connection, capital.

And the question is, how shall the proceeds of the joint efforts of capital and labor, in augmenting the natural productions of nature, be divided between labor and capital?

In times past, Government officials and capital.

In times past, Government officials and capital have wrested from the laboring men all of the proceeds of capital labor, and the spon.

"THE FENIANS.—Recruiting for the Nine-teenth Fenian regiment is progressing favorably and we are informed that about is hundred names have already been put down, nearly, if not all of whom will be promptly on hand when the moment for action arrives. A company has been recruited at Covington to the number of recruits augmented. We understand, on what is deemed reliable authority, that orders have been received by those in the rolers in readiness for the field at a moment's notice, and we should not be surprised by or before the first of May, to hear that positive marching orders have been received. Some of the officers and a number of the men enlisted in the Nineteenth Fenians, are veterans of the old Tenth Indiana, and from their reputation while members of that gallant regiment, the new organization can not but take front rank.

Hence, after, by discussion, arriving at the at the just rule of dividing incomes between labor and capital, it will be necessary for labor, for a time to associate and ald its devotees in obtaining its true statur relative to capital.

What the true line of division is, we are not now able to point out with precision. It is manifest that as man has a moral and intellectual, as well as physical nature, time ought to be divided between the exercise of the three, and that the time given to physical labor ought to brung sufficient remuneration to support the laborer and his family well during performance, and enable him to accumulate a surplus against sickness and old age. The Rochester Union says: " The quantity The Rochester Union says: "The quantity of spirits smuggled into the country from Canada is enormous, probably one-third of all that is consumed. All the stuff telegraphed from Washington will not gainsay this. One half the whisky sold in this city, Buffalo, and other points along the frontier, is the product of Canadian spirits."

A letter from San Antonio, Texas, says the Government camels, the descendents of the herd imported some fifteen years ago from Egypt, excite the curiosity of all strangers. They number about seventy, are all sizes and ages, some still nuwcaned. Only seven of the original lot are still alive.

President Johnson has granted a pardon to Barthold J. Drassen, who was convicted, about two months since, of a conspiracy (in connection with two others) to defraud the Government, and sentenced to two years' imprisonment in the county jail of the district.

The municipal authorities of Boston have enacted that the bowling and billiard saloons of that city shall be closed at ten o'clock every evening except Saturday, and from six o'clock of that evening until over Sunday. The Boston Transcript says: "Mr. Charles F. Browne (Artemus Ward) has received an offer of \$20,000 (in gold) and his expenses for a lecturing tour in England of six months. William Croft, famous as a fugitive slave, has established a large school at Whydah; and King Dahomey testifies his appreciation by sending him a present of six slaves.

1st. While in the pocket, care should be taken to keep the watch with the pendant ring upwards so that it may be as nearly as possible upright.

2d. In winding, hold the watch steadily in one hand, while winding it with the other, and carefully avoid giving it a quick, circular motion.

2d. When out of the pocket, the watch should be laid with the face up, the ring of the pendant being turned under the back so as to give it a slight inclination.

4th Compare the watch by a standard clock of the most reliable character, and regulate it by no other.

5th. We regret to learn that Hon. Harvey G. Mr. Hazelrigg is widely known as a worthy, estimable gentleman, and a shining light in Masonry. The announcement of his death would cast a gloom over the order throughout this and adjoining States.

You're a female brick, you are, and " nothing shorter." Why don't you go in for the "legitimate" and "high art," even if you starve? Why don't you reform the stage-play Juliet, or Julia in the "Honeymoon," instead of "Tartarine," the banjo, and the d-1? But you won't-we know you won't; and there's no use preaching. For good, honest, straightforward lying, that will do. Mr. McNabb's majority was two hundred and seventy-four, but that make ittle difference to a newspaper correspondent. Pugilistic.—There seems to be a good deal

f fight in the atmosphere just now, and the isposition to redress private grievances by an appeal to the manly art, and to strike out from the shoulder on the slightest provecation, is general. Within the past ten days scarcely a day has passed that has not been fruitful of assaults and batteries, bearing a fruitful crop of bunged eves and smashed noses. The last affair is that of a business man, who had a quarrel with his partner, and dissolved the onnection "by mutual consent," of course, whereupon the retiring partner wrote a letter to Crossland, McGuire & Co., telling them not to trust the remaining partner, as he was "lame duck." tor-Commander (32°.) A GRAND EXCURSION .- A pleasure trip

on a magnificent scale, to New Orleans and back, has been gotten up-elegant and commodious boats to leave Cincinnati and Louis ville on the 17th of May, for the purpose of carrying the excursionists. We can imagine no more pleasant excursion than down the great river at this season of the year. Always interesting, many of the points along the Mis sissippi have become historical on account of the warlike associations connected with them. In fact there is scarcely a place so insignificant that it has not its history of fire and blood. There is Memphis, where the first grand river combat of the war occurred: Vicksburg, where the most obstinate and determined resistance of the war was

made; Port Hudson, and numbers of other places which have re-echoed to the roar of artillery, and the screaming of shot and shell. But aside from historical associations, the trip will prove attractive to one who seeks to combine instruction with pleasure. In the month of May the South is seen in all her glory of verdure and flower, while there is a glowing sensuousness in air and sky to which our more northern clime is a stranger. The dark and sombre forests of cypress trees, from Arrangements have been made for the chil- the branches of which depend the dren of the public schools to visit the Pano- ghostly tufts of moss; the magnolia trees with their beautiful green enameled schools of Washington street will attend on leaves and glorious white flowers; the culti-Thursday afternoon, and the schools north of vated cane fields, with the large, airy and Washington street will attend on Friday af- quaint looking mansions embowered in groves of orange trees and flowering shrubs, together

The Parkersburg Times is responsible for the following: "All the wells at Burning Springs are yielding some two thousand barrels per day, as near as we can gather. The wells on White Oak are yielding, of heavy oil, one hundred and fifty-nine barrels a day. The Lick Run three hundred barrels, the Horseneck one hundred and fifty. There are outside wells yielding from two hundred to three hundred barrels per day, besides the Hurkes wells yielding from two hundred to three hundred barrels per day, besides the Hughes river region, of which we have very fittle knowledge. The product of oil in this vicinity is about six thousand barrels per day, the most of t fine lubricating oil that will vin from forty to one hundred and twenty per gallon. This shows that the oil territory of West Virginia is the best yet discovered, and yet not one half the puffing has been applied to it there is in Pennsylvania. It is time we let our country be known through the press.

Crops and Crop Prospects.

Farmers are generally busy and progressing rapidly in sewing spring grass, many acres of which have been sown during the past ten days. The extreme cold of last winter, with the small fail of snow was thought at one time to have built injured winter wheat; but wherever it had a good start in the fall, it appears to have sustained no serious damage. From what we have learned in going through towns hereabouts, and from conversations with farmers, we think wheat has come through the winter better than usual, and unless other causes prevent, the crop will be

through the winter better than usual, and un-less other causes prevent, the crop will be above the average.

Fruits of all kinds appear to have escaped damage. Peaches in all the orchards we have examined are setting for blossoms, and the only danger appears to be that they will open too soon. The cool weather we have experi-enced during the past two days lexactly what is needed to retard the buds. From present Royal Secret.

It has been strongly intimated in radical circles that the Senate will soon take up and pass the House bill imposing unlimited and unqualified suffrage in the District of Columbia. The leaders of that party in the Senate are urging the matter, and are anxious to make the experiment in this city and district, where they can force such a detestable measure with negro bayonets. The President will ure with negro bayonets. The President will, of course, veto any such bill, but they think they can pass it over his head.

LUMBERING IN WISCONSIN.-The loggers have mostly come out of the woods. The number of logs banked in the country this winter is about 150,000, which will make about 45,000,000 feet of lumber, showing a deficiency from last year of 40,000,000 feet. The Shawano lake lumbermen have put in about 7,000,000 feet of logs.—Shawano Journal, April 4.

The dispute as to confederation in the Province of Nova Scotia has developed a spirit not attogether favorable to its future retention by the British crown. One member of Parliament is charged with treason, and "threats of disloyalty," says the Toronto Leader, "are bandled backward and forward in a way that is not at all edifying."

A New York poet has found a new rhyme for "bosom." Her old bards were merely limited to "blossom," which wasn't quite the thing either. But the Gothamile sings of Attila, and tells us how slumber subdues him on somebody's bosom, which is tolerable rhyme and not a bad situation.

Over a Million Dollars Saved!

Over a Million Dollars Saved:

Gentlemen: "I had a negro man worth \$1,200 who took cold from a bad hart in the leg, and was useles for over a year. I had used everything I could hear of without benefit, until I tried the Mexican Mustang Liniment. It soon effected a permanent cure.

Montgomery, Alabama, June 17, 1859.

"I take pleasure in recommending the Mexican Mustang Liniment as a valuable and indispensable article for Sprains, Sorea, Scratches or Galls on Horses. Our men have used it for Burns, Burless, Sores, Rheumatism, etc., and all say it acts like magic."

J. W. HEWITT, Foreman for Am rican, Wells, and Fargo's and Harndre's Ex. ress."

"The sprain of my daughter's ankle, occasioned while skating last winter, was entirely cured in one week after she commenced using your celebrated Mustang Liniment.

Glouceater, Massachusetts, August 1, 1865. after the commenced using your celebrated Mustang Liniment.

RD. SERLY."
Gloucester, Massachusetts, August 1, 1865.
It is an admitted fact that the Mexican Mustang Liniment performs more cures in shorter time, on man and beast, than any article ever discovered. Families, livery men and planters should always have it on hand. Quick and sure it certainly is. All genuine is wrapped in steel plate engravings, bearing the signature of G. W. Westbrook, Chemist, and the private U. S. Stamp of DEMAS BARNES & Co., over the top.

An effort has been made to counterfelt it with a cheap stone plate label. Look closely!

It is a most delightful Hair Dressing.
It eradicates scurf and dandruff.
It keeps the head cool and c can.
It makes the hair rich, soft and glossy. It prevents hair turning gray and falling off.
It restores hair upon prematurely bald heads.
The is just, what Lyou's Cathairon will do. It is pretty—it is cheap—durable. It is hterally seld by the car load, and yet its almost incredible demand is daily increasing, until there is hardly a country store that does not keep it, or a family that does not use it.

Who would not be beautiful? Who would not add their beauty? What gives that marble purity and distingue appearance we observe upon the stage, and in the city belle? It is no longer a secret. They use Hagan's Magnolia Baim. Its continued use removes tan, freck-less, pimples and roughness from the face and hands, and leaves the complexion smooth, transparent, blooming and ravishing. Unlike many cosmetics, it contains no material injurions to the skin. Any druggist will order it for you, if not on hand, at 50 cents per battle
